### IMPORTANT RECOMMENDATIONS:

**Drinking Water:** Always ensure free access to fresh water at all time especially if your dog lives under a hot climate.

**Diet Transition:** Changes in your dog habits should be made gradually. During the first week it is best to mix A LA CARTE with the food your dog is used to.

**Meal Variation:** Although A LA CARTE formulas are complete and well balanced for every day needs of your dog, we highly recommend to mix other food such as cooked vegetables, A LA CARTE cans, or else so that your dog remains healthy at all stage of his life. Otherwise he may also loose interest in his food with time.
